Comments: Tuesday 5th Jan - 12th Jan

This Graph has been extracted from the above (it is possible to isolate incoming and outgoing) but as you can see if one is more dominant than the other it can hide the Data Graph. It should be noted that into town from the mini round about is under half of the flow going from the town center to Langport road. My Observation is that it is a result of the 1 way system and West street car parks..... psf.
